

Instructions for 24" Hot Air Balloon

Kit will include 25-24" latex, 24-pull bows & 24-hot air nets

To keep assembly time to a minimum, gather the materials and read through the instructions before beginning.

Labor: About 5 minutes

Helium: About 5 cu. ft.

Materials:

1- 24" Stars & Stars—#87194

1- 24" Hot Air Balloon Net

1- 5" Pull Bow

*Curling Ribbon

*Weight

Instructions:

1. Fully Helium inflate the 24" balloon & tie (*refer to tip*).
2. Tie the balloon to a piece of curling ribbon tied to a weight. Drop the weight into the basket
3. Drape the net over the 24" balloon adjusting the strings until they are even. Tie the strings to the basket.
4. Remove the curling ribbon and weight (*the balloon is now supported by the net*).
5. Decorate the basket as desired with the 5" pull bow.

WARNING: Be sure customer has an SUV or large van to transport the balloon home.

TIP

If you have trouble tying the latex balloon, twist the neck of the balloon and wrap a 260Q around the neck several times and tie like a string. Cut off excess 260Q.
